Direction - Policy Drivers

NHS Mandate

NHS Planning Guidance - Refreshing NHS Plans for 2018/19

PM Challenge on dementia

NHS Mandate 2018/19

Overall 2020 goals:

- Deliver the actions as outlined in the Challenge on Dementia 2020 Implementation Plan

2018-19 deliverables:

- Maintain a minimum of two thirds diagnosis rates for people with dementia.
- Implement and embed the dementia pathway, set out in the Implementation Guide and resource pack for dementia care, and improve the quality of post-diagnosis treatment and support.

NHS Planning Guidance 2018/19

- Maintain the dementia diagnosis rate of two thirds of prevalence and improve post diagnostic care.

- Increase the number of people being diagnosed with dementia, and starting treatment, within six weeks from referral;
- Improve the quality of post-diagnostic treatment and support for people with dementia and their carers

What we've done:

- Achieved and maintained national ambition
- Inclusion in CCG IAF
- Reduced number of CCGs more than 10 percentage points below ambition
- Provided IST to CCGs most in need
- Ethnicity data

What we're doing now:

- Continue to address diagnosis rates at sub-national level
- Monitoring RTT
 - MHSDS

Dementia diagnosis rates

Dementia diagnosis rates 2017/18

Support offer (1)

The dementia support offer recognises that CCGs will have varying levels of need for support and provides two levels, which can run concurrently.

Level 1 – general advice available to all CCG

This level mainly continues the support already available to CCGs e.g.

- Publication of the monthly dementia diagnosis rates alongside CCG specific reports and benchmarking
- Working through the Clinical Networks (CN) and Academic Health Science Networks (AHSN) to ensure direct support is provided to CCGs at a local level through monthly WebEx and annual CN and AHSN meeting
- Working with regions to deliver the new Operating Model by using local intelligence and data to support commissioners and providers to deliver the efficient and effective dementia services
- Publication of other dementia metrics along the well pathway on the PHE dementia Fingertips profile
- A catalogue of best practice examples is available from England.domainteam@nhs.net
- Publication of Commissioning for Value RightCare Packs for Dementia and costed RightCare Dementia Care Pathway Scenarios to support commissioners to achieve value for money <https://www.england.nhs.uk/publication/getting-the-dementia-pathway-right/>

Support offer (2)

- Publication of the new dementia pathway to support commissioners and providers to improve access to dementia services. <https://www.england.nhs.uk/mental-health/dementia/implementation-guide-and-resource-pack-for-dementia-care/>
- Publication of guide to support implementation of care planning template into GP systems to ensure providers are aware of requirements and supported to make any system changes necessary to meet them <https://www.england.nhs.uk/wp-content/uploads/2017/02/dementia-good-care-planning.pdf>
- And, the Alzheimer's Society offers face to face meetings with a senior Alzheimer's Society official to provide information, advice and support to help review how local services can best meet local need. This can be arranged via Raj Kapoor, Head of External Training and Consultancy at Alzheimer's Society via email at Raj.Kapoor@alzheimers.org.uk

Level 2 – targeted support available to those CCGs that need to make an improvement

The support offered at this level is in addition to the support offered in level 1 and includes:

- A sustainability assessment tool which CCGs can use to identify key areas that need to be hardwired into systems and processes for on-going identification of dementia. This tool will be available from England.domainteam@nhs.net in Q1 2018/19.
- Advice to individual CCGs provided by the national clinical director for dementia or other senior representatives
- System collaboration, including buddying arrangements

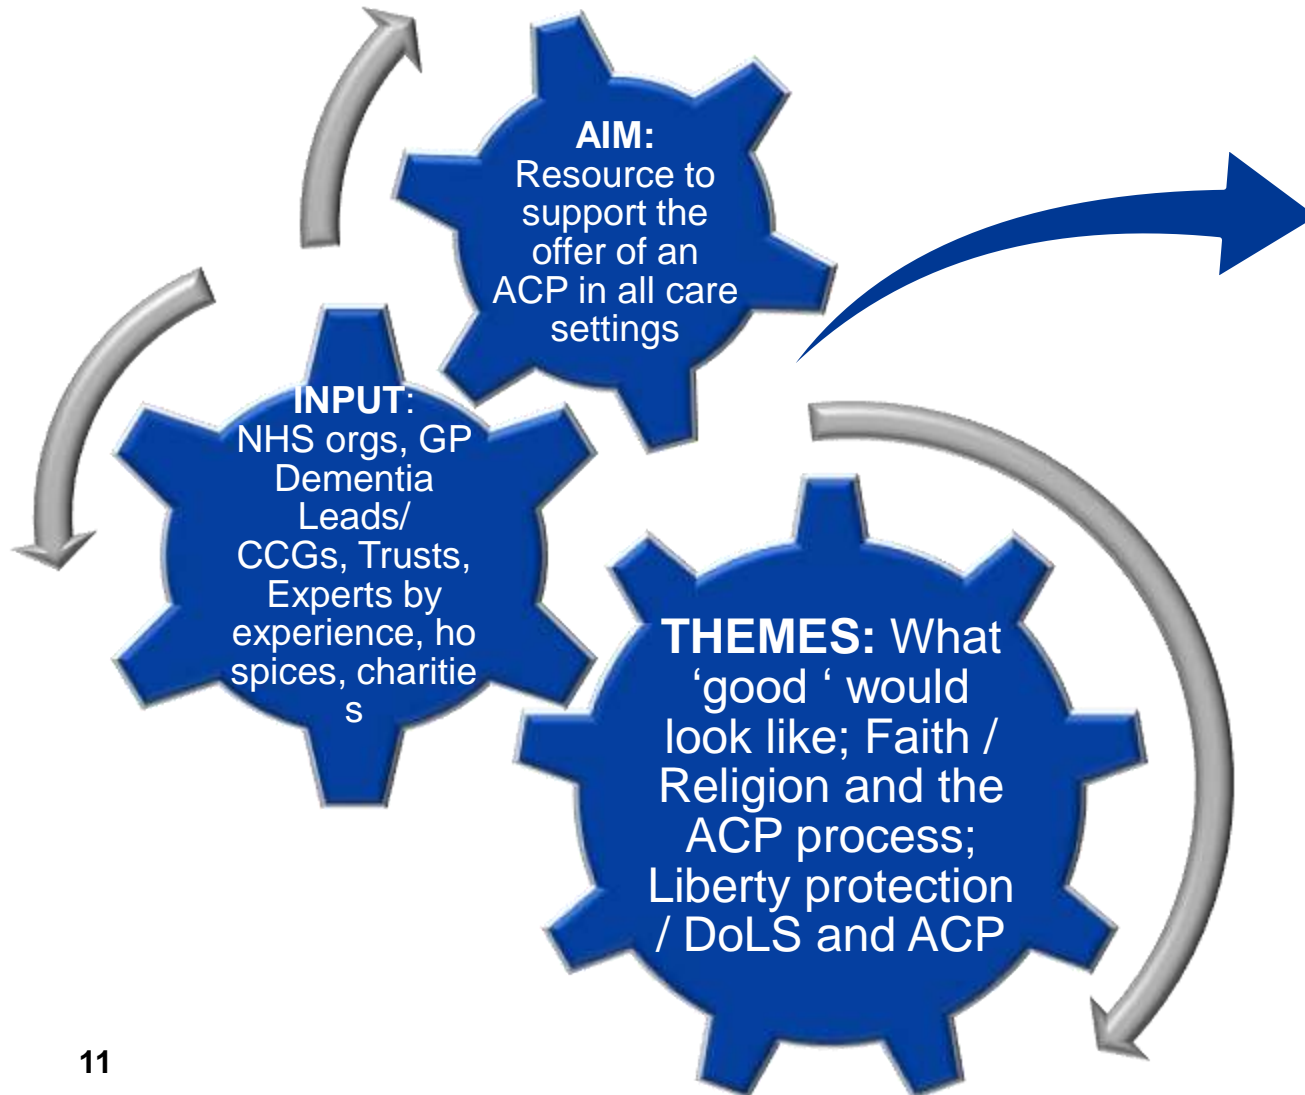

What we've done:

- Care plan in CCG IAF
- Published good care planning guidance
- Published advanced care planning sign-posting document
- Publishing monthly anti-psychotics prescribing data

What we're doing now:

- Operationalising the good care planning guidance template
- Dementia commissioning know how
- STP pilot
- Experience measure

Dementia: Advance Care Planning (ACP)

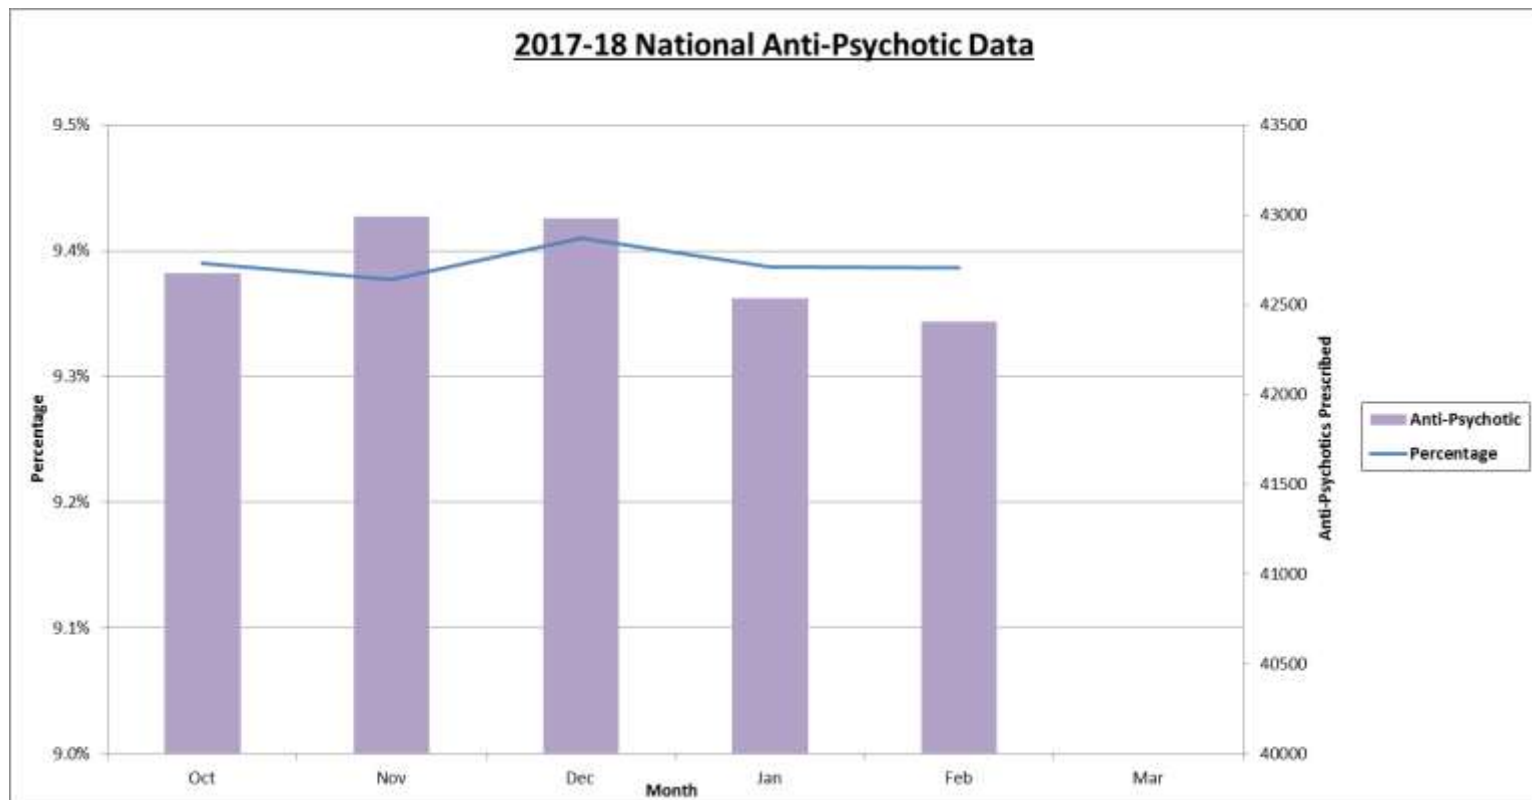

Primary care

- Template – system suppliers
- Monthly extract:
 - Named coordinator of care
 - Medications review

Secondary care

- MHSDS

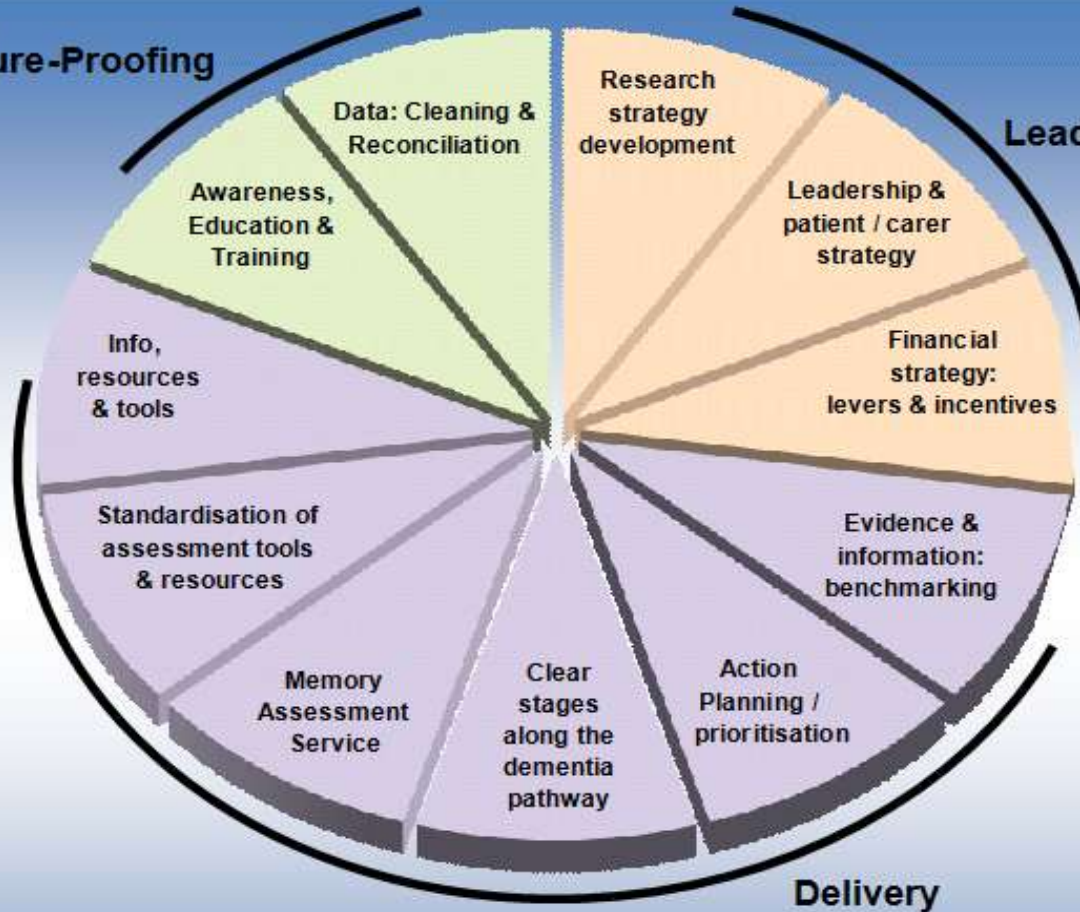

- NHS Digital published the latest collection of anti-psychotic dementia data in **February 2018**
- Anti-psychotics should not be prescribed to people with dementia (without psychosis) in the majority of cases.

Dying Well

Co-related conditions, morbidities & advance care planning

STP initiative

- Working with 3 STPs to take part in project
- Bring together a range of measures with potential to reduce:
 - unnecessary admissions
 - length of stay
- Person centred meaningful care
- Targeting care homes and individual residents within those homes for bespoke support

Any Questions?
